

## Quality Policy

Allthread Industries Pty Ltd is committed to provide thread rolled products, fasteners, metal pressings and project specific fabricated products of quality and workmanship that meets, or exceeds, the needs and expectations of our customers.

In order to achieve these high standards Allthread Industries Pty Ltd have established, will maintain, and continually improve an effective Quality Management System that emphasises the importance of:

- ) Satisfying the requirements of ISO 9001: 2015.
- ) Enhance customer satisfaction through effective application of the system and meeting customer requirements.
- ) To develop quality objectives that will adopt a continual improvement approach to the system.
- ) Monitoring the performance of the system through objective measurements & regularly review the suitability and effectiveness of the system.
- ) Satisfying applicable requirements such as customers, statutory or regulatory.
- ) Apply Risk Management processes that identifies, evaluates and controls hazards and risks with the specific aim of risk reduction or elimination.
- ) Provide appropriate resources so that Quality and compliance is an integral part of the organisation and its culture.

All personnel within the organisation realise their responsibility for Quality and accept the requirement to conform to the processes and procedures contained in the HSEQ Manual and Quality Procedures as outlined in the HSEQ Management System.

I, along with the leadership team, are fully committed to supporting the Quality Management System. A HSEQ Coordinator has been nominated with responsibility for Quality Management System implementation, monitoring that it operates effectively and consistently reports conditions directly to management.

Hymie Lubczanski  
MANAGING DIRECTOR
